PROFILE SUMMARY

- Displayed expertise in software development with a focus on creating intuitive and visually appealing front-end user interfaces using React JS, backed by nearly 1.5 years of hands-on experience

- Proficient in a wide range of technologies including React JS, Node JS, HTML, CSS, JavaScript, MySQL, MongoDB, and Shopify Liquid, enabling the development of innovative and robust software solutions

- Currently working as, a Software Engineer at HCL Tech, Noida, driving the development of front-end user interfaces using React JS, leveraging Shopify theme customization, and implementing robust inventory management systems for e-commerce products

- Possess understanding of Software Development Lifecycle (SDLC) right from requirement analysis, documentation (functional specifications, technical design), coding and testing (preparation of test cases along with implementation) to maintenance of proposed applications

- Updated knowledge by studying state-of-the art development tools, programming techniques, and computing equipment, participating in educational opportunities, reading professional publications and maintaining personal networks

- Consistently delivered high-quality code that meets project requirements, resulting in successful outcomes and client satisfaction

ACADEMIC HIGHLIGHTS

- **2019:** B.Tech. ECE (MAKAUT) from Narula Institute of Technology, Kolkata, West Bengal with 8.46 CGPA

- **2015:** Higher Secondary (ISCE) from Douglas Memorial H.S. School, West Bengal with 81.2%

- **2013:** Secondary (ICSE) from Jogamaya Memorial Institute, West Bengal with 81.2%

WORK EXPERIENCE

(Mar'22 – Present): HCLTech | Noida

Software Engineer

Key Responsibilities:

- Developing front-end user interfaces using React JS, ensuring a seamless user experience
- Customizing Shopify themes to create visually appealing and functional e-commerce stores
- Testing modules developed by self & the team to ensure that these were as per desired quality standards; writing test specifications and conducting tests
- Creating inventory management systems for products in the e-commerce domain
- Writing efficient and clean code according to project requirements; documenting software solutions through flowcharts, layouts, diagrams, charts, code comments and clear code
- Collaborating with cross-functional teams to deliver high-quality software solutions; performing analysis, design, verification, demonstration and maintenance of products in a process-driven, team environment

(Feb'2021-Feb'2022): Wipro Ltd. | Kolkata

Technical Associate

Key Responsibilities:

- Troubleshot hardware and software issues for HP desktops and laptops
- Developed software solutions by having studied information needs, conferred with users, analyzed systems flow, data usage, and work processes
- Provided customer service support and resolved technical issues
- Liaised with users for requirement gathering; prepared functional specifications and low-level design documents
- Displayed strong communication skills in effectively addressing customer concerns
- Collaborated with team members to provide technical resolutions
- Contributed to software improvements (products, processes, methods, tools), design inspection and code review

PROJECT WORK

- **Quiz App** (Jul'2023)
    o Developed app containing quizzes in various categories such as sports, history, politics
    o User can access/play all of the quiz or can choose to attempt any one of them and check scores at the end
    o Project link: https://master.d1x7nr2p336jao.amplifyapp.com/
- **Grocery Bud** (Mar'2023)
    o Created web application for managing grocery lists; allows user to add, edit, and remove items from the list, as well as mark them as completed
    o Built using React and provides an intuitive user interface for efficiently managing groceries
    o Project link: https://master.dxzgi7dsov9l0.amplifyapp.com/
